Special notes:

1. Intermediate, unlisted sizes (in Dia and Length) price of next larger listed size will be charged.
2. All sizes (in Dia and Length) should be ordered in multiples of 5 upto dia 25.40 mm.
3. Minimum ordering value per size should be worth Rs. 15,000 /- gross.
4. For specials and unlisted sizes please refer to us.
5. Other details will be maintained as per IS:7822

Terms & Conditions:

1. Prices are F.O.R. Destination.
2. Prices are subject to revision without prior notice.
3. All legal proceedings are subject to Mumbai Jurisdiction.

12.30 to 12.60	31/64		10080
12.70 to 13.00	1/2		10630

- Use the shortest drill possible for the specific applications as Longer drills are :
 1. More costly
 2. Break easily
 3. Drill bell mouthed holes
- Avoid the tendency to over speed and under feed as Excessive speed causes:
 1. Premature outer corner drill wear
 2. Material work hardening
 3. Long, stringy chips
 4. Reduced drill life
 5. Increased cost per hole
- Optimising feed rate:
 1. Helps break up chips
 2. Reduces premature outer corner drill wear
 3. Reduces material work hardening
 4. Extends drill life
 5. Reduces cost per hole
- Use split point drills for drilling alloy materials as it benefits:
 1. Start at the point of contact (self-centering)
 2. Drill with less torque and thrust
 3. Break up chips
- A hole of three drill diameters or deeper should be considered a deep hole. Therefore, you should peck drill just enough to prevent chips from packing in the flutes, because chip clogging is the major cause of drill breakage.
- When drilling harder materials (i.e. above HRC 35) :
 1. Reduce speeds and feeds to prevent points from burning and drilling breakage.
 2. Use cobalt drills as their higher hardness and heavy-duty construction are designed for drilling harder-materials.

- Use steam tempered. The black oxide surface laser holds the coolants and lubricates to the surface of the drill retarding material build-up. This treatment also improves toughness.
- You should Novrease speeds and feeds as follows:

Speed and feed Reduction (Based upon hole depth)		
Holes Depth To Diameter Ratio (times drill diameter)	Speed Reduction	Feed Reduction
3	10%	10%
4	20%	10%
5	30%	20%
6	35-40%	20%

- Use coolant whenever possible, this will keep the drill cooler. Chip welding and breakage are also reduced. Coolant helps the drill to last and will give the drill a better chance of operating without failing.
- Chips should be short and broken up.
- Keep drills sharp! Sharp drills perform better and last longer. Sharp drills also increase productivity and have a reduced tendency to break.
- Chuck drill on shank area only, not in the flute area

These are straight flute general purpose taps which can be used for both machine or hand tapping. They are generally the most economical tool for use on production runs, but are best on materials that produce chips, or where the swarf breaks readily. Where deep holes are to be tapped, in materials which produce stringy swarf, other types of taps may be needed, especially for coarse threads.

Hand taps can be supplied in sets of three; bottom, second and taper leads, or individually.

BOTTOM TAPS have a chamfer (lead) of 1–2 threads, the angle of the lead being around 18 degrees per side. They are used to produce threads close to the bottom of blind holes.

SECOND TAPS have a lead of 3-5 threads at 8 degrees per side. They are the most popular and can be used for through holes, or blind holes where the thread does not need to go right to the bottom.

TAPER TAPS have a lead of 7-10 threads at 5 degrees per side. The taper lead distributes the cutting force over a large area, and the taper shape helps the thread to start. They can therefore be used to start a thread prior to use of second or bottom leads, or for through holes.

Who We Are

GSK Corporation is a leading provider of Industrial Tools, Abrasive Solutions, Cutting Tools, Packaging Machinery, and MRO Supplies, delivering high-quality products that empower industries to work smarter and faster.

We aim to become the most trusted and preferred partner for businesses by ensuring reliable service, genuine products, rapid delivery, and expert support. From small workshops to large industries, we provide solutions that improve productivity and enhance operational safety.

A Trusted Industrial Tools Partner

With years of experience and a diverse product portfolio, GSK Corporation stands as a one-stop solution for all industrial consumables and equipment.

- ✓ Premium quality products
- ✓ Best pricing & bulk supply
- ✓ Fast & reliable delivery
- ✓ Expert support after sales

And we have many more industrial tools and solutions available to meet every industry need — with continuous product expansion to serve you better.”

Why Choose Us

At GSK Corporation, we deliver high-quality industrial tools and consumables designed for superior performance and durability. With a strong distribution network, competitive pricing, and trusted brand partners, we ensure faster delivery and reliable supply for all your business needs.

"We focus on precision, product reliability, and timely delivery – ensuring your operations never stop."

Simple, Effective, and Affordable

We offer a wide range of industrial tools that provide exceptional value without compromising on quality. Whether you need abrasives, power tools, or safety solutions, our experienced team is always ready to guide you with tailored product recommendations and after-sales support that helps you work smarter and grow faster

Results-Driven Product Quality

Customized Industrial Supply Solutions

Experienced & Knowledgeable Team

Full-Service Support for Business Growth

Let's Work Together

At GSK Corporation, we believe in building long-term partnerships with businesses by delivering reliable industrial tools and exceptional service. Whether you're a manufacturer, distributor, or workshop, our dedicated team ensures that you get the right products at the right time – helping you increase productivity and reduce downtime.

Let's collaborate to drive better performance, fast delivery, and smart solutions for your operations.
